Family Support Services

When to Make a Referral

Public Health staff are available to assist parents and families with children birth to five years of age who have developmental, behavioral, and/or learning concerns. In addition, staff can assist parents in understanding their child's developmental needs and in accessing community resources that can support their child's development. Please see the list below which specifies when it would be appropriate to refer a family for services. If you don't see your concerns listed, feel free to contact us.

Please check all the appropriate box(es) which apply:

- Parent has concerns regarding their child's development, language and /or behavior (0-5 years of age) and needs support
- Parent has concerns regarding their child's development (0-5 years of age) and needs to be informed of further resources in the community
- Parent needs assistance and/or support in navigating the system of early intervention services for their child (0-5 years of age)
- Child did not qualify for early intervention services through Early Start, Tri-Counties Regional Center (0-3 years of age)
- Child is almost 3 years old and is in the process of transitioning out of the Early Start, Tri-Counties Regional Center and parent needs support
- Child did not qualify for Special Education Services through their local School District (3-5 years of age)
- Child is receiving services through their local School District and parent needs additional support in navigating the system for their child

If you have further questions, or if we can be of any assistance, please call our office at: 805-981-5240.
